

**REMARKS/ARGUMENTS**

Applicant appreciates the time that Examiner Shah took for a telephonic interview on January 5, 2005 to discuss the SUPPLEMENTAL AMENDMENT B filed on December 17, 2004. During the interview, Examiner Shah indicated that the amendment had not been officially received by him, but that he was able to review the scanned version.

During the interview, claim 1 was discussed, and Examiner Shah indicated that the claimed subject matter, were the amendments to be entered, do not appear to be covered by the cited art.

In addition to presenting the amendments previously filed (in SUPPLEMENTAL AMENDMENT B) but not entered, the claim amendments submitted herewith also include additional claims that recite, in greater detail, the integrating of resource controls associated with the newly added operating system software into the existing set of resource controls.

In the event the Examiner does not allow the amended claims, Applicant respectfully requests a further telephonic interview.

Respectfully submitted,

BEYER WEAVER & THOMAS, LLP
